## ABOUT ME

Motivated to build software that's genuinely useful and widely used. My expertise lies in the MERN stack, and I'm currently focused on making my chess website to one of the best chess game online, while also exploring other web technologies

## EXPERIENCE

### Web Developer | Arkham Archives *sep 2025 | nov 2025*

- Built a full-stack **AI-powered music platform** enabling features like music generation, instrument separation, and stem extraction using multiple AI integrations
- Designed and developed the **entire UI/UX**, focusing on usability and clean interaction with this Implemented advanced **performance optimization techniques** in React, including lazy loading, pagination, debouncing, and throttling to improve load time and responsiveness
- Optimized rendering and API handling to ensure **scalable and efficient data processing** for audio-heavy operations and with this Engineered modular and reusable components to maintain **clean architecture and long-term maintainability**

## SKILLS

- **Languages** : JavaScript, Typescript & C
- **Frontend**: Html & CSS
- **Frameworks & library** : React, Tailwind CSS, Chakra UI & NextJS.
- **Backend & Database :** Node.js, Express.js, MongoDB, SQL, Postgress, EJS and Redis.
- **Tools :** Git, Github, Postman, Supabase & VS code.
- **Deployment :** AWS (EC2, S3, IAM, VPC), GitHub Actions & PM2 (node-app monitoring).
- **Course-work:** Data Structure And Algorithms & Web Securtity

## PROJECTS

**Online multiplayer chess** | *reactjs, expressjs, tailwindcss, socket.io* *mar 2026 | present* **LIVE-LINK**

- Building a **multiplayer chess website**, where any user can play chess with other users online and can compete for top rankings
- For now in backed I am using **socket.io, express** and currently implementing **mongodb** and for frontend currently only using **tailwind** and **react** but for frontend or backend the technology will be upgraded as requirement changes
- Already **Deployed** on **render (server)** and **Netlify (frontend)** for monitoring purpose**.**

## EDUCATION

**LORDS UNIVERSAL COLLEGE** **Mumbai | India**
*Bachelor of Science – Computer Science* *2021 – 2025*
**VIDYANIDHI COLLEGE OF SCIENCE AND COMMERCE** **Mumbai | India**
*11TH & 12TH* *2018 – 2020*
