ABOUT ME

Motivated to build software that's genuinely useful and widely used. My expertise lies in the MERN stack, and I'm currently focused on improving my problem-solving skills through DSA while building an e-commerce platform.

SKILLS

- **Languages** : JavaScript, Typescript & C
- **Frontend**: Html & CSS
- **Frameworks & library** : React, Tailwind CSS, Chakra UI & NextJS.
- **Backend & Database :** Node.js, Express.js, MongoDB, SQL, Postgress, EJS and Redis.
- **Tools :** Git, Github, Postman, Supabase & VS code.
- **Deployment :** AWS (EC2, S3, IAM, VPC), GitHub Actions, Ansible & PM2 (node-app monitoring).
- **Course-work:** Data Structure And Algorithms & Web Securtity

PROJECTS

Online multiplayer chess | *reactjs, expressjs tailwindcss, socket.io* *July 2025 | August 2025* **LIVE-LINK**

- Build a **multiplayer chess website**, where any user can play chess with another user online without login.
- On backed I used **socket.io** to established connection between multiple people, due to its speed and Realtime connectivity with **react-router** on frontend for navigation.
- Designed to be responsive and interactive and **Deployed** on **render (server)** and **Netlify (frontend).**

EDUCATION

MUMBAI UNIVERSITY **Mumbai | India**
Bachelor of Science – Computer Science *2021 – 2025*

VIDYANIDHI COLLEGE OF SCIENCE AND COMMERCE **Mumbai | India**
11TH & 12TH *2018 – 2020*
