## ABOUT ME

Motivated towards building software's which will be useful to others, currently building E-Commerce website and started learning DSA.

## SKILLS

- **Languages** : JavaScript and C
- **Frontend** : Html, CSS, React, Tailwind CSS and Chakra UI.
- **Backend & Database :** Node.js, Express.js, MongoDB, SQL,EJS and Redis.
- **Tools :** Git, Github, Postman and VS code.
- **Deployment :** AWS (EC2, S3, IAM, VPC), GitHub Actions and PM2 (node-app monitoring).

## PROJECTS

**Online multiplayer chess** | *reactjs, expressjs tailwindcss, socket.io* *July 2025 | August 2025* **LIVE-LINK**

- Build a **multiplayer chess website**, where any user can play chess with another user online without login.
- On backed I used **socket.io** to established connection between multiple people, due to its speed and Realtime connectivity with **react-router** on frontend for navigation.
- Designed to be responsive and interactive and **Deployed** on **render (server)** and **Netlify (frontend).**

**E-commerce website** | *MERN, redis, S3, Oauth* *August 2025 | ongoing*

- Building a **e-commerce website**, where a user can **purchase,rate or review products** and could **sell the products** as a vendor
- Implemented **OAuth** and **Manual Authentication** (express-session and passport.js)
- Implemented **pagination** for products and search results and **S3** for images to make the site more fast

## EDUCATION

**LORDS UNIVERSAL COLLEGE** **Mumbai | India**
*Bachelor of Science – Computer Science* *2021 – 2025*

VIDYANIDHI COLLEGE OF SCIENCE AND COMMERCE Mumbai | India
*11TH & 12TH* *2018 – 2020*
